**Activity  
Invention  
Detective**

**LULAC Program Curriculum: 2021 Latina LEADS Program**

**Activity Theme: STEAM**

**Estimated Time: 15 minutes**

**Introduction:**

As a class, you explored how the STEAM fields work together to drive creativity and innovation. Technological advancements are all around us and are progressing faster than ever before!

Look around your home and find one invention and answer the following questions. Get as creative as you can with your answers!

Bring the completed worksheet to your next class to discuss as a group.

**What is the invention you selected?**

**What is the use of this invention?**

**What are three unique uses for this invention that someone may not typically think of?**

**How does this invention benefit you?**

**What STEAM fields were used to develop this invention?**

**What is the environmental impact of this invention?**

**How would you change this invention to make it better?**
